Q1. Read the passage and answer the following questions .

Thousands of years ago, Thunder and Lightning lived on Earth, just like other living creatures. Thunder was an, old sheep and her son, a young ram, was Lightning. They lived in a small kingdom, on the outskirts of a forest.

Lightning, like many small boys, was naughty and reckless. He was also hot-headed, and whenever he got angry, he would rampage through the village, burning down houses, uprooting trees, and damaging crops and orchards. He scared the other animals with his outrageous deeds. Thunder tried her best to restrain her son's behaviour. She would shout at him in voice so loud and booming that the entire kingdom would hear her. But Lightning paid no heed to his mother's words, and continued his errant ways. Fed up, people finally complained to the king about it.

Being concerned about the welfare of his subjects, the king felt that it was not fair that so many people should suffer for the actions of one. So, he exiled Lightning and Thunder to the forest. However, this made no difference. Whenever Lightning lost his temper, he would burn down the forest, forcing the forest-dwelling animals and birds to flee. The resulting smoke would be blown towards the villages nearby, causing much suffering. The forest fires would sometimes spread, burning the surrounding villages and farms.

Many people became deeply worried about the frequent fires. They approached the king, seeking a solution. The king became angry, and decided to banish Lightning and Thunder so that other creatures could live in peace. He ordered both of them to leave the Earth and live in the sky. They did as ordered, and people at last breathed a sigh of relief. But as you know, not much has changed. When Lightning gets angry, he creates havoc, setting everything on fire. And you can hear his mother Thunder shouting at him in her deep, reverberating voice afterwards. That is why, you first see the flash of lightning and then hear the thunder. Sometimes, Thunder may be busy doing some other work or she is far away or she is simply too tired. So, during those times, when Lightning flashes, his mother's voice is not heard.

The stories were later published as comic albums, 23 in all. The original stories were in French, but today we can read the adventures of Tintin in 50 Languages.

2. Captain Haddock with his colourful vocabulary, the bumbling detectives, Thomson and Thompson, and the deaf genius, Professor Calculus are part of many adventure along with Tintin and his pet white terrier Snowy. The stories happen in distinct setting all around the world. While grown-ups enjoy the well-researched plots, humorous dialogue and the fine, detailed art-work, children will never tire of the element of mystery, adventure, science-fiction and fun packed into every book.

3. Tintin was the creation of Belgian artist Georges Remi, better known as Herge (that's how R.G., his initials, are pronounced in French). He created other comic characters too, but none has stood the test of time like Tintin. Herge did a great deal of background work for each of his stories. The 24th story in the series, Tintin and Alph-art, was unfinished when he died in 1983. It was published posthumously.

4. In 2006, the Dalai Lama honoured the character of Tintin and Herge with the Light of Truth Award. 'Tintin in Tibet' probably introduced the amazing landscape and culture of Tibet to the world. Unique tribute, indeed, to an artist and his creation.

वीरता की अभिव्यक्ति अनेक प्रकार से होती है। लड़ना-मरना, खून बहाना, तोप-तलवार के सामने न झुकना ही नहीं कर्ण की भाँति याचक को खाली हाथ न लौटाना या बुद्ध की भाँति गूढ़ तत्वों की खोज में सांसारिक सुख त्याग देना भी वीरता ही है। वीरता तो एक अंतः प्रेरणा है। वीरता देश – काल के अनुसार संसार में जब भी प्रकट हुई, तभी अपना एक नया रूप लेकर आई और लोगों को चकित कर गई। वीर कारखानों में नहीं ढलते, न खेतों में उगाए जाते हैं, वे तो देवदार के वृक्ष के समान जीवन रूपी वन में स्वयं उगते हैं, बिना किसी के पानी दिए, बिना किसी के दूध पिलाए बढ़ते हैं। वीर का दिल सबका दिल और उसके विचार सबके विचार हो जाते हैं। उसके संकल्प सबके संकल्प हो जाते हैं। औरतों और समाज का हृदय वीर के हृदय में धड़कता है।
